Full Stack Web Development with ASP.NET Core

Practice Task: Module -1, Lecture -1

Task 1: Install **Visual Studio 2022** in your personal pc (desktop or laptop)

Task 2: Declare an integer array of size 5. Take input from the **Console Window** using loop.

Task 3: Declare an integer array of size 3. Insert 3 random numbers.

- Find the largest number using conditional statement (if-else)
- Find the smallest number using '**Switch**' statement
